

What arrives with every activated lead

Three real accounts from your in-market audience, researched the way every activated lead is: who they are, why they are on your list, the specific R&S angle, and a suggested opener your team can use verbatim. Every claim carries its source. Where nothing published can be found, the dossier says so rather than guessing.

Kayla Jackson

Director of Materials · **Viam Manufacturing, Inc.** · Manchester, TN

DEEP DIVE DOSSIER · SAMPLE

FIT

9/10

TIMING

7/10

AUTHORITY

9/10

Three scores, never blended — a 9-fit with 3-timing is a different play than a 6/6/6.

COMPANY SNAPSHOT

Automotive interior supplier; OEM floor mats, trunk mats and molded carpet; bills itself as the only truly global car floor-mat supplier. Part of Germany's Freudenberg Group. Manchester, TN plant sits on the I-24 corridor, about an hour from Nissan Smyrna and 90 minutes from VW Chattanooga. Fresh rebrand (2025) and EV-platform program wins signal growth posture.

Sourced: viam-global.com · captured 2026-07-29

WHY THEY ARE ON YOUR LIST

Materials leadership at this plant was observed researching 3PL and warehousing topics inside the last 30 days. Automotive storage is an R&S specialty and the plant is in-state, inside the Tennessee cluster. Director of Materials owns raw-material staging, overflow and JIT sequencing pain.

Observed research signal, rolling 30-day window · Groupserv intent engine

THE LOGISTICS ANGLE

OEM just-in-time programs punish a full floor. Pitch overflow raw-material and finished-goods warehousing plus cross-dock between Manchester and OEM sequencing windows; Knoxville/Loudon puts R&S on their lane east, and automotive is already on the specialty list.

SUGGESTED OPENER

"We warehouse for automotive suppliers along the I-40/I-75 corridor; when a program launch or an OEM release-schedule change eats your floor space, we are an hour away."

AUTHORITY
9/10

Three scores, never blended — a 9-fit with 3-timing is a different play than a 6/6/6.

COMPANY SNAPSHOT

Global importer and supplier of nuts, seeds, dried fruit and specialty snacks since 1986; 50+ products from 40 countries (Vietnam, Brazil, India, West Africa). Vertically integrated farm-to-customer with bulk supply, warehousing and manufacturing. HQ Richmond, VA; certifications include BRCGS, USDA/EU Organic, Fairtrade and Kosher, so food-grade handling is non-negotiable. Summerville, SC location is about 25 minutes from the Port of Charleston.

Sourced: redriverfoods.com · captured 2026-07-29

WHY THEY ARE ON YOUR LIST

Their global-logistics lead was observed researching 3PL and warehousing topics inside the last 30 days. Food-grade storage is an R&S specialty and the Savannah facility speaks their port language. Import volumes swing with harvest seasons, exactly the overflow profile a 3PL absorbs.

Observed research signal, rolling 30-day window · Groupserv intent engine

THE LOGISTICS ANGLE

Container imports through Charleston today; Savannah gives them a second port leg with food-grade warehousing and transload behind it. Pitch seasonal overflow storage, QA holding and port-to-inland distribution.

SUGGESTED OPENER

"You bring product in through the ports; we run food-grade warehousing with port access at Savannah and cross-dock inland from there. When harvest-season volume outruns your space, that is exactly the overflow we hold."

Three scores, never blended — a 9-fit with 3-timing is a different play than a 6/6/6.

COMPANY SNAPSHOT

Specialty beverage co-packer for national and international brands; contract manufacturing, filling and packaging with the broadest range of packaging capabilities in the nation. Facilities in Mooresville NC, Fort Worth TX and Cold Spring MN; the NC plant is about 3.5 hours from Knoxville down I-40. FSSC 22000 certified. Their own site advertises using on-site AND off-site warehousing for ingredients, packaging and finished goods, so third-party space is already in their operating model.

Sourced: carolinabeveragegroup.com · captured 2026-07-29

WHY THEY ARE ON YOUR LIST

Their supply-chain lead was observed researching warehousing topics inside the last 30 days. Food and beverage warehousing is an R&S specialty and FSSC-grade expectations match certified handling. Co-packers flex with every client launch; cans, ingredients and finished goods surge in waves.

Observed research signal, rolling 30-day window · Groupserv intent engine

THE LOGISTICS ANGLE

Every new brand they win means pallets of empty cans, ingredients and finished goods that need staging near the line. Pitch overflow warehousing plus finished-goods distribution to Southeast retail DCs off I-40.

SUGGESTED OPENER

"You already run off-site warehousing as part of your model; we do food-grade storage and distribution off I-40, a day from your Mooresville plant. When a brand launch spikes your volume, that is the overflow we are built for."
